Texaco Tips On Car Care

★ Check battery water level

Now, during the hot summer months, it's wise to check your battery water level more frequently than usual. Water evaporates quickly under high temperature, in just a few days can drop below top of plates, drying them out, reducing power and permanently damaging the battery. Maintain water level approximately $\frac{3}{8}$ " above plates. And to protect battery terminals from corrosion, scrape or wire brush both clamps and terminal posts until clean and then apply a coating of light grease.

★ Enjoy powerful engine performance

For fast starts, top passing power and performance — for all the power you paid for — use *Advanced Custom-Made Havoline*, the motor oil that out-performs them all. It keeps your engine clean, guards against wear and rust. Get the best motor oil your money can buy — *Havoline!* The man to see is your Texaco Dealer, the best friend your car has ever had!

TEXACO DEALERS IN ALL 48 STATES

Texaco Products are also distributed in Canada and in Latin America

THE
TEXAS
COMPANY

If you have received your dues bill from the Model A Ford Club of America, we encourage you to remit your MAFCA dues directly to MAFCA instead of having us forward your payment to them.

DUES REMITTANCE FORM

Dues for year 2019 are being accepted now. If you will not be attending any of this year's remaining general meetings and wish to pay your dues by mail, please remit to the Treasurer prior to 12/31/2018, and enclose this remittance form. If you are already a MAFCA member, write your member number on the form and mail it, along with your check, payable to NEW ORLEANS A'S, to:

**Hall Townsend
3808 Richland Ave.
Metairie, LA 70002-3018**

HARAHAN POLICE DEPARTMENT CHRISTMAS PARADE SAFETY RULES

We appreciate your cooperation in continuing to make this a safe and enjoyable community event.

"Where is the Model A Serial Number (VIN) located on the chassis?"

When the Model A was on the assembly line, after the engine was installed in the frame, a worker would stamp the engine number onto the left side of the frame, just aft of the first body hole on top of the frame.

After many years, rust and dirt have accumulated in this location requiring gentle scraping and cleaning to reveal the number. Look for the letter "A" followed by a number ending with a five-pointed star.

Don't be surprised if the number you find doesn't match the current engine serial number!

Rock Black, 2009
